PROFESSIONAL SUMMARY

Software Engineer and BSc (Hons) in Information Technology graduate from the University of Moratuwa with professional experience in full-stack web and mobile application development and game development. Experienced in developing responsive applications using React.js, Next.js, Node.js, Flutter, Firebase, and Supabase, with skills in REST APIs, authentication, database management, API integration, and application deployment. Delivered software and game development solutions for international clients through freelance development. Additional experience in Python, machine learning, Unity, Unreal Engine, C#, and C++.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, Java, C#, SQL

Frontend Development: React.js, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Web Design

Backend Development: Node.js, Express.js, .NET/ASP.NET, REST APIs, Authentication & Authorization, API Integration

Mobile Development: Flutter, Dart, Cross-Platform Mobile Development, Responsive UI, API Integration

Databases: PostgreSQL, MySQL, MongoDB, SQL Server, Supabase, Firebase

Cloud & Tools: Vercel, Git, GitHub, Docker, Postman, npm, VS Code

Game Development: Unity, Unreal Engine, Godot, C#, GDScript, Game Mechanics, 2D/3D Development

AI/ML: Python, Scikit-learn, Pandas, Random Forest, Data Preprocessing, Model Evaluation, OR-Tools

Engineering: OOP, Data Structures & Algorithms, SDLC, Debugging, Testing, Agile/Scrum, Requirements Analysis

WORK EXPERIENCE

Freelance Full-Stack Developer

2025–Present

Fiverr | Remote

- Developed and delivered web and mobile applications for international clients using React.js, Next.js, Node.js, Flutter, Firebase, and Supabase.
- Built responsive web interfaces, backend services, REST API integrations, authentication, and database functionality.
- Developed cross-platform mobile applications using Flutter and integrated cloud services and APIs.
- Managed client requirements, development, testing, deployment, and technical support throughout the project lifecycle.

Game Developer Intern

2025 / 6 Months

RAM Studios (subsidiary of CodeGen International (Pvt) Ltd)

- Developed and tested game features using Unreal Engine, Unity, C#, and C++ in a professional development environment.
- Implemented gameplay mechanics, interactive features, and user interfaces based on project requirements.
- Applied object-oriented programming, debugging, and software engineering practices while collaborating with the development team.

Freelance Game Developer

2021–2024

Fiverr | Remote

- Developed and delivered 10+ browser-based HTML5 games for international clients using JavaScript, HTML5, and CSS3.
- Developed interactive game experiences using Unity and C#, including game mechanics, UI, and scoring systems.
- Collaborated with 50+ international clients to gather requirements, implement custom features, and deliver tailored solutions.
- Managed multiple projects independently from requirements analysis through development, testing, and delivery.

EDUCATION

BSc. (Hons) in Information Technology	Expected 2026
University of Moratuwa, Sri Lanka	Academic requirements completed; awaiting convocation
G.C.E. Advanced Level	2020
Rivisanda Central College, Ussapitiya, Aranayake, Sri Lanka	Mathematics Stream

SELECTED PROJECTS

1. AI-Based Residential Floor Plan Recommendation System *Python, Scikit-learn, Random Forest, OR-Tools*
 - Developed an AI-assisted system that converts client preferences into structured residential design requirements.
 - Trained Random Forest models to predict room dimensions, achieving R^2 scores of 0.75–0.98, and implemented OR-Tools constraint validation for feasible floor plan generation.
2. Student Learning & Classroom Web Platform *React.js, Supabase, PostgreSQL*
 - Developed a full-stack platform for student and teacher access to classroom-based learning activities.
 - Implemented Supabase authentication, PostgreSQL data management, and responsive access-controlled interfaces.
3. Client-Based Full-Stack Web Applications *React.js, Next.js, Node.js, Supabase, Firebase, Vercel*
 - Developed customized full-stack web applications for international clients using React.js, Next.js, and Node.js.
 - Implemented REST APIs, authentication, database integration, and responsive interfaces, with deployment through Vercel.
4. Cross-Platform Kids Wellness Mobile Application *Flutter, Dart, Firebase, Cloud Firestore*
 - Developed a cross-platform mobile application for mood tracking, child profiles, and interactive wellness activities.
 - Implemented Firebase Authentication, Google Sign-In, Cloud Firestore, reusable Flutter widgets, animations, and multi-profile navigation.
5. Interactive HTML5 Game Platform *JavaScript, HTML5, CSS3*
 - Developed and delivered 10+ browser-based interactive games for international clients.
 - Implemented game logic, responsive UI, scoring systems, animations, and customized gameplay features using JavaScript.

CERTIFICATIONS & ACHIEVEMENTS

- Fiverr Level 2 Badge – Recognized for successful delivery of game and software projects to international clients.
- Amazon Web Services: Basic – Alison, 2026.
- Responsive Web Design Certification – freeCodeCamp, 2024.
- HackMoral 2024 – Hackathon Participant.
- CodeRush 2023 & 2024 – Hackathon Participant.
